Technical Service Center

Factory Authorized Warranty & Repair • Factory Trained • Fast Turn Around

As an authorized service center we are part of a team that supports the products we sell. We can help you install systems, plumb fixtures, build control panels and repair your pulse, hydraulic, pneumatic, or electric equipment. Our repaired tools are tested on our Torque Monitoring System.

Hydraulics

- Cylinders (*up to 500 ton capacity*)
- Pumps (*hand, electric, gas, air/hydraulic*)
- Valves (*manual, electric, pneumatic*)
- Tools (*torque wrenches, cutters, crimpers, pipe pushers, and service kits*)

Pneumatics

- Cylinders (*clamping, tie rod*)
- Control systems (*non-hazardous and hazardous locations*)
- Valves
- Dispensing systems
- Tools (*drills, screwdrivers, nutrunners, impacts, pulse, sanders, and grinders*)

Electric

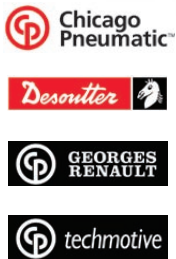

- DC drive (*single and multiple spindles*)
- Tools (*screwfeeders, drills, screwdrivers*)

Adhesive dispensing systems

- Hot Melt dispensing machines
- Bulk tank transfer systems
- Drum unloaders

Fluid supply systems

- Pneumatic diaphragm pumps
- Pneumatic piston pumps

Other services available

- Equipment and control integration for special machines or production lines. *Including, but not limited to; drilling, tapping, dispensing, and workholding*
- Torque auditing of single tools or multiple DC drive systems
- On-site support, installations, maintenance, and troubleshooting
- Phone support/troubleshooting
- Work support/workholding installation and plumbing
- Torque seminars

Our technicians have over 50 years of combined diagnostic & repair experience

If your tool or equipment brand isn't shown above, give us a call at 800.365.2480 or send an email to servicecenter@appliedproducts.com
